

Sword of Deliverance

Alcatrazz

Justify, all the lights surround me now
Justify, hear me screaming death or glory
Ride? We'll ride into the sunset
Fight? Bring terror to the world
As we
Justify, an immortal godhead
Praise most high as we tell
The world our story
On the way to salvation

Bring me the Sword of Deliverance
Bring me the Sword of War
Bring me the Sword of Deliverance
And the truth will prevail

Justify, desolation angels call
Justify, as the hellfire rages higher
Show no mercy to the children
Show no mercy to the world

Bring me the Sword of Deliverance
Bring me the Sword of War
Bring me the Sword of Deliverance
And the truth shall prevail

Let the fires rage

The light shines brighter
Than a thousand suns
Unholy war
Unholy world

The light shone brighter
Than a thousand suns
Unholy war
Unholy world

Bring me the Sword of Deliverance
Bring me the Sword of War
Bring me the Sword of Deliverance
And the truth will prevail

Let the fires rage
