

# Burn Like the Sun

Aldo Nova

I, I was alone  
With no reason to live  
With no strength to stand on my own  
And I, I've known pain  
I've lived my life on the edge  
Seen the blood almost run from my veins

And I prayed to God, somehow, I'll make it through  
Give me a sign, the angels sent me you  
Now I, I burn like the sun  
You're my fire, you're the fever  
That's runnin' through my blood  
I, I burn like the sun  
You're my strength, you're the reason  
That I keep burnin' on

Life is given to you  
With each step that you take  
There's a chance you could win or lose  
Love, yeah, love's been untrue  
Almost took the last beat of my heart  
Then there was you

I was drownin' but I couldn't stop the rain  
  
With my final breath, I found my faith again

Now I, I burn like the sun  
You're my fire, you're the fever  
That's runnin' through my blood  
I, I burn like the sun  
You're my strength, you're the reason  
That I keep burnin' on  
And if I only had one breath  
And the last beat of my heart  
I would gladly give them  
Both to you, my friend  
Yeah, yeah, yeah  
You're the fire, you're the fever

I, I burn like the sun  
You're my strength, you're the reason  
That I keep burnin', I keep burnin'  
I, I burn like the sun  
You're my fire, you're the fever  
That's runnin' through my blood  
I, I burn like the sun  
You're my strength, you're the reason  
That I keep burnin' on
