I'm not a puppet in your role play
You should know
I cut the strings and do it my way

You can't tell me no
But you know I need not follow
I'm letting go
You won't phase me anymore

I won't apologize
About what I'm about to say, no
I won't back down, you know
It makes me want to show

That I'm invincible
And you told me you're invincible
And I do this on my own

I'm going up, up, up, yeah
With or without you
Up, up, up to stay
I'm going up, up, up, yeah
I don't need you
You won't get in my way

Yeah, I would always say
You gotta walk the talk you're speaking
(You gotta walk the talk you say)

It's swatter day
I'll be a big girl
Now I'm leaving
Ow

You can't tell me no
But you know I need not follow
I'm letting go
You won't phase me anymore

I won't apologize
About what I'm about to say, no
I won't back down, you know
It makes me want to show

That I'm invincible
And you told me you're invincible
And I do this on my own

I'm going up, up, up, yeah
With or without you
Up, up, up to stay
I'm going up, up, up, yeah
I don't need you
You won't get in my way

You know I won't stop

You're just a road block
You know I won't stop

The road is all mine
It's mine, I see it just fine
All I need is one night
