

Blue Swallows

Alela Diane

It comes and waves now
I can feel it grow and I can would one
I hard my face
In hers gurts as the child

Now remember singing
Hallelujah
Hallelujah Hallelujah
Hallelujah
But the black black night sorrounds now
The black black night sorrounds now
The black black night sorrounds
And I try
I try
I try to make the mans
With the day
But it's past

My voice
Only acuse when it needs to
To you feel the blue swallows
blowing from my thought

My voice
Only acuse when it needs to
To you feel the blue swallows
blowing from my thought

Cuse they are
They are

I came to patterns that umbrace me
Cause that
Where I'm lucky
And I live
To feel avoid

That's the shadow want my chest
That's the shadow want my chest
He follows me
And I need
I need
I need to expose it
To the sun

And my voice
Only acuse when it needs to
To you feel the blue swallows
blowing from my thought

My voice
Only acuse when it needs to
To you feel the blue swallows
blowing from my thought

Becuse they are
They are

And soon as I can feel it
The spring to will begone
Maybe is strong
Wind will blow
And take
This flames away

Cause there's the candle in my poms
Oh, there's the candle in my poms
I can feel it's won
And I watch
I watch
It's cruel smoke curling...

And my voice
Only accuse when it needs to
To you feel the blue swallows
growing from my thought

My voice
Only accuse when it needs to
To you feel the blue swallows
blowing from my thought

Cuse they are
They are
They are
