

# Chasing Stars

Alesso

It was just like magic  
When your hips came crashing  
There were fires burning and my hands learning  
To paint with passion  
It was planets meeting  
It was synced up breathing  
There were angels calling and more free falling  
Than I believed in  
Yeah

Memories like freight trains hit me  
I replay to keep you with me  
Better to have had than not at all

We were chasing stars  
Across the county lines  
Two imperfect pieces  
With our fingers intertwined  
And I would do it all again  
Knowing I'd be left behind  
Oh, what a time  
Back when you were mine

Oh, I'm hurting  
But I'm still certain  
That when the pain comes back in waves  
Yeah, it was worth it  
Yeah

Memories like freight trains hit me  
I replay to keep you with me  
Better to have had than not at all

We were chasing stars  
Across the county lines  
Two imperfect pieces  
With our fingers intertwined  
And I would do it all again  
Knowing I'd be left behind  
Oh, what a time  
Back when you were mine

Back when you were mine  
Oh, we were chasing stars  
Oh, we were chasing stars

We were chasing stars  
Across the county line  
Two imperfect pieces  
With our fingers intertwined  
And I would do it all again  
Knowing I'd be left behind  
Oh, what a time  
Back when you were mine (When you were mine)

Back when you were mine  
Back when you were mine

Oh, we were chasing stars  
Oh, we were chasing stars  
Back when you were mine
