

## Sad Song

Alesso

I'll go to the moon just to get close to you  
But sitting in your room I feel so far, far, far away  
You know what to do to pull me into you  
'Cause every time you move, you take my breath, breath, breath away

I wanna hear you, ooh  
Suddenly off my feet  
So will you come through, ooh  
And I'll play you on repeat, oh

You're singing a sad song but you make it sound happy  
You've got the perfect words to hurt me so, hurt me so good  
You're singing a sad song but you make it sound happy  
You're playing my heart and I'm falling apart just like I knew I would

Tell me why I save every last dance for you  
And everything you say, I memorize it all  
You know how to get me higher  
Even when I wanna cry  
But you're setting me on fire just to warm, warm, warm you up

I wanna hear you, ooh  
Suddenly off my feet  
So will you come through, ooh  
And I'll play you on repeat, oh

You're singing a sad song but you make it sound happy  
You've got the perfect words to hurt me so, hurt me so good  
You're singing a sad song but you make it sound happy  
You're playing my heart and I'm falling apart just like I knew I would

Everything about you kinda makes it sound happy  
How many words for you to hurt me so, hurt me so good  
Everything about you kinda makes it sound happy  
I'm falling apart just, falling apart just like I knew you would

Hear you deep inside of me  
Your back and forth is slowly killing me  
Don't just leave me quietly  
Play your song and keep coming back to me

You're singing a sad song but you make it sound happy  
You've got the perfect words to hurt me so, hurt me so good  
You're singing a sad song but you make it sound happy  
You're playing my heart and I'm falling apart just like I knew I would
