

## Sweet Escape

Alesso

We drive so far, to get away  
Never look back, we don't care about nothin' else  
A sweet escape  
Gotta break free, like a shooting star  
Let the skyline guide us  
We don't care about nothin' else  
A sweet escape  
Feels like heaven, nothing can stop us now  
We run away, a sweet escape  
Nothing can hold us down  
Just like a wave that never breaks  
Nothing can stop us now  
And if you fall, I'll pick you up  
I'll follow you 'til the end of time  
We run away, a sweet escape  
Nothing can stop us now [x4]

All lights go out and fade away  
Never lose faith, leave all of your fears behind  
A sweet escape  
Gotta break free, with an open heart  
Let the sunshine find us  
We don't care about nothin' else  
A sweet escape  
Feels like heaven, nothing can stop us now  
We run away, a sweet escape  
Nothing can hold us down  
Just like a wave that never breaks  
Nothing can stop us now  
And if you fall, I'll pick you up  
I'll follow you 'til the end of time  
We run away, a sweet escape  
Nothing can stop us now [x4]

And if you fall, I'll pick you up  
I'll follow you 'til the end of time  
We run away, a sweet escape  
Nothing can stop us now
