

# Can't Get Enough

Alex Day

I can still feel all the kisses you put on my face  
Yours is my favourite smile at the end of the day  
And I resist the urge to tell you I am in love  
When you are in my arms, I can't get enough  
I can't get enough

I remember when you drew me a flower and said I was the best  
And the way you looked at me in the bar, I know I'll never forget  
You are branded on my mind, even with no makeup on  
To these eyes you look like heaven, I can't get enough  
I can't get enough

I have never fallen head-over-heels, now I won't ever again  
There's not another one in the world who'd ever turn my head  
So tell me whatever you need, cos I am not gonna run  
I adore you darling and I can't get enough  
I can't get enough
