

Everybody's Looking

Alex Day

Look at this crowd, look at these people
Everybody's looking, everybody's looking at me

Nowhere to hide, no one to turn to
And everybody's looking, everybody's looking at me

What do you want, what do you need?
I will give it all if you're looking at me
Shout it out loud, say you believe

And if I go down I want you to see
I'm giving you all of me
When everybody's looking at me

I'm in your eyes, I'm going nowhere
If everybody's looking, everybody's looking at me

And I'm gonna die, either with or without you

So I want everybody looking, everybody looking at me

So tell me what do you want?
What do you need?
I will give it all if you're looking at me
Shout it out loud, say you believe

And if I go down I want you to see
I'm giving you all of me
While everybody's looking at me

What do you want, what do you need?
I will give it all if you're looking at me
Shout it out loud, say you believe

And if I go down I want you to see
I'm giving you all of me
While everybody's looking at me
