

If You Want Me

Alex Day

It's been fun
I guess it's time to run
Unless you decide to stop me
If you want me
Darling, you know I ain't afraid of you
Cos I know how you wanna play
Let's see if you can shock me
If you want me

Down in the dark
Where the whispers are hard
And I get you where you wanna be
When you call my name I'll be back here again
If you want me

Come a little closer into the light
I will be with you, you know
Come a little closer, up to the line
I'll be here if you want me
Be a little louder all through the night
I'll encourage you, you know
Push a little more if the time is right
And if you want me

Even though
I know I need to go
I'm good for one more story
If you want me
If you're gonna miss me, you say you will
Well prove it with all that you do
I'll let you press down on me
If you want me

Come a little closer into the light
I will be with you, you know
Come a little closer, up to the line
I'll be here if you want me
Be a little louder all through the night
I'll encourage you, you know
Push a little more if the time is right
And if you want me

Down in the dark
Where the whispers are hard
And I get you where you wanna be
When you call my name I'll be back here again
If you want me

Come a little closer into the light
I will be with you, you know
Come a little closer, up to the line
I'll be here if you want me
Be a little louder all through the night
I'll encourage you, you know
Push a little more if the time is right
And if you want me
