

Let It Rain On

Alex Day

Don't time go by so fast?
Wasn't long ago when we started
And the world outside gets cold
And the two of us grow older

I love the way you smile for me, and I
Know there ain't no place I'd rather be
And when the wind comes to our window
We pull the sheets up and move closer

There ain't no stone we will leave unturned
Ain't no river in the whole wide world
We will sail on, so let it rain on
Let it rain on, baby let it rain on

There ain't no storm we ain't passing through
Ain't no summit that we won't climb to
No complaining, s'only raining
So let it rain on, baby let it rain on

And don't the years go by so fast
And the things we know get harder
But you see me through it all
You pick me up each time I falter

I love the way you laugh with me and I
I see it all laid out in front of me
When the wind comes to our window
We pull the sheets up and move closer

There ain't no stone we will leave unturned
Ain't no river in the whole wide world
We will sail on, so let it rain on
Let it rain on, baby let it rain on

There ain't no storm we ain't passing through
Ain't no summit that we won't climb to
No complaining, s'only raining
So let it rain on, baby let it rain on

I love the way you smile for me, and I
Know there ain't no place I'd rather be
When the wind comes to our window
We pull the sheets up, we pull the sheets up
We pull the sheets up and move closer

There ain't no stone we will leave unturned
Ain't no river in the whole wide world
We will sail on, so let it rain on
Let it rain on, baby let it rain on

There ain't no storm we ain't passing through
Ain't no summit that we won't climb to
No complaining, s'only raining
So let it rain on, so let it rain on
Let it rain on, come on let it rain on
