

Piece of Me

Alex Day

I don't know if you remember
How I looked the day I met you
Tried to think of something clever
I was trying to impress you

All those years and all these changes
Days like these I think about it
Should you have ever been a stranger
Would I be the same without you

When I call you up
You're always there for me
There for me
Sometimes I think
I left a piece of me
A piece of me

As I find my way
I feel you there
In every step I take
So don't you miss me when you do
You got a piece of me with you

I don't know if you remember
How I looked the day I met you

Tried to think of something clever
I was trying to impress you

All those years and all these changes
Days like these I think about it
Should you have ever been a stranger
Would I be the same without you

When I call you up
You're always there for me
There for me
Sometimes I think
I left a piece of me
A piece of me

As I find my way
I feel you there
In every step I take
So don't you miss me when you do

As I find my way
I feel you there
In every step I take
So don't you miss me when you do
You got a piece of me with you

Yeah
