

# The End Of The World

Alex Day

It's the end of the world  
Not long to go before it's over  
And you'll never have to wonder if it's all just in your head  
It's the end of the world  
Grey, green and blue, one careless owner  
And you'll never have to work again if everyone is dead

Now presenting the apocalypse  
Our feature presentation  
And the sea levels can rise but they won't beat my expectations  
We've been planning this for centuries  
Our final entertainment  
Everyone's a VIP to see  
The end of civilization

And we're not gonna save it  
And we finally made it

It's the end of the world  
Not long to go before it's over  
And you'll never have to wonder if it's all just in your head  
It's the end of the world  
Grey, green and blue, one careless owner  
And you'll never have to work again if everyone is dead

And we're not gonna save it  
And we finally made it  
Now presenting the apocalypse  
Our feature presentation

In all of history  
We are the ones  
Who made it to the end  
No use denying  
Let's burn it all  
And go out as we lived

Cos we're not gonna save it  
And we finally made it

It's the end of the world  
Not long to go before it's over  
And you'll never have to wonder if it's all just in your head  
It's the end of the world
