

Electrica Salsa

Alex Gaudino

I warn you about my secret
I'm going to expose
A great threat to your bodies
To your mind and souls
Don't be alarmed
It doesn't smell danger
Stumble in the groove
Dance with a stranger

Don't have to ask you to get up
You'll do it in your own
Electrica salsa, baba baba
Electrica salsa, mmh mmh
Electrica salsa, aha aha
Electrica salsa, baba baba

Believe in what i say to you
The only james dean
Is not coati mundi of this music scene
It's me, my friend
The master of salsa
Cabasa down with me
The beat is getting faster

Don't have to ask you to get up
You'll do it in your own
Electrica salsa, baba baba
Electrica salsa, mmh mmh
Electrica salsa, aha aha
Electrica salsa, baba baba

Yesterday's percussion
Today's technology
Electrica salsa is in with me
The new age sound is on the move
I give you now the second groove

Don't have to ask you to get up
You'll do it in your own
Electrica salsa, baba baba
Electrica salsa, mmh mmh
Electrica salsa, aha aha
Electrica salsa, baba baba
