

Just Because Of You [Sambatucada]

Alex Gaudino

Baby you're the apple of my eyes
It's so touchy to be by your side
Baby you are so hard to find
Now I'm so glad to call you mine

When you hold me in your arms
And embrace me with your charm
You're my homie, lover, and my friend
You give good l-o-v-e in a way

So I get loud just because of you
I get loud when I'm with you
I get loud just because of you
I get loud when I'm with you

You're so close but we're too far
Sometimes I didn't know where you are
Heaven knows how long I've tried
I know I focused you inside my mind
Let's relax for a little while
When we'll spend some quality time
You brought me in something new
With your ... I feel so true

I get loud just because of you
I get loud when I'm with you
I get loud just because of you
I get loud when I'm with you
