

Promise

Alex Gaudino

Baby you can have the world
Girl I promise, girl I promise
This love ain't for them other girls

Baby I promise, baby I promise, promise
Girl I promise, promise
Tonight's gonna be all yours

It's the perfect time to let go lose you
Self reacts your mind now
You got my attention and grand your body
Hearing might erect you

Give me your hand we can dance through the night, night, night
Nobody else matters it's just you and I, I

Baby you can have the world
Girl I promise, girl I promise
This love ain't for them other girls
Baby I promise, baby I promise, promise
Girl I promise, promise
Tonight's gonna be all yours

Whatever you imagine I can make it happen
Travel around the planet, let's go
I love all your fashion, got me in a transcend
I can't help but want you more

Give me your hand we can dance through the night, night, night
Nobody else matters it's just you and I, I

Baby you can have the world
Girl I promise, girl I promise
This love ain't for them other girls
Baby I promise, baby I promise, promise
Girl I promise, promise
Tonight's gonna be all yours

So it's just gonna be you and I
And you should know we'll own the night
Baby you can have the world
Girl I promise, promise
Tonight's gonna be all yours

I promise baby
I promise baby
I promise baby
I promise baby
