

All (I Ever Want)

Alexander

All I ever want (All I ever want)

All I ever want is fighting
And all I ever need is trying
All the things I long to do
They haven't all for me and you
Now, never and forever, I stand
This is all I ever want

All I ever want is fighting
And all that I can do is trying
All for one is you and me
And all at once eternity
Strong as never and forever I stand
This is all I ever want

Oooh, all I love thee
All I ever need is you
Even in a world so cruel
All can change because of you
Cause together, all together we stand
All I ever want

Miracles of heaven and all of that

Whoooa, you like the stars come crashing down

All is thrown away
We'll find a way
It's all in all
We feel the same
Oh, we're home again
This is all&

All I ever want is fighting
All I ever want
And all I ever need is trying
All I ever need
You can make me all come clean
And you're the one I ever need
Cause together, all together we stand
This is all I ever want&

All I ever want is you
Mmmmm&
You ...
