

Don't Love Me Baby

Alexia

Don't love me baby
I don't want you
No no no no
I see you walking under the rainfall
Let you know that you're part of my life
It's so hard to declare that it's over
You're still in my mind, in my mind
No no no no
Come on baby
No no no no
Get out of my life

Don't love me baby
I don't want you
Cause my heart can't resist tonight
No no no no
Come on baby, hello
I wanna love you forever
I hear you talk to me about the future
But you're just fooling me with your lies
Once you said that it would last forever
With you by my side, by my side
No no no no
Hello, baby
