

It's Christmas Time

Alexia

Now it's time to say
That I'm afraid
To face the world today
But it's not too late
To make a change
We need a better place to stay

We've been too blind for so long
It's time to search into our souls

Because it's christmas time
Let's stay together
For once in my life
I feel love for all
It's christmas time
Let's stay together
Let's not be apart

When it's cold outside
The wind blows
The windows of my home
There's someone I know
Who feels so alone
He's hungry
He has no place to go

My heart cannot pretend
I really need to give a hand

Because it's christmas time
Let's stay together
For once in my life
I feel love for all
It's christmas time
Let's stay together
Let's not be apart

My heart cannot pretend
I really need to give a hand

Because it's christmas time
Let's stay together
For once in my life
I feel love for all
It's christmas time
Let's stay together
Let's not be apart

It's christmas time
I love you
