Devil's Food

Alice Cooper

Get ready for the lady She's gonna be a treat Simmer slightly 'til ready Make her soft too Make her sweet

I kiss the tears off from your chest
I felt the poison fright that's in your breath
I knew your precious life and I know your death
I squeeze the love out of your soul
All the perfect love that's in your soul
You're just another spirit on parole

Devil's food Devil's food Devil's food
