Alice Cooper

Give It Up

You got your sugar You got your spice You got a kitten Now isn't that nice You just can't wait for a picnic in Spring I just get nauseous When I think of those things

You wait and wait and you wait for a lifetime For a little piece of cake in the night time yeah You wait and wait you can't wait any longer You wait and wait, couldn't be any wronger no Give it up...Give it up...Give it up

You shop around for a sensible car You hold your breath when you wish on a star You settle down in a warm little house You make some babies with your warm little spouse Ah... how nice

You wait and wait and you wait for a lifetime For a little piece of cake in the night time yeah You wait and wait you can't wait any longer You wait and wait, couldn't be any wronger no Give it up...Give it up...Give it up

Just when you got it made And all your bills are paid You stumble and fall into your grave Ah, too bad ! Give it up!

You wait and wait and you wait for a lifetime For a little piece of cake in the night time yeah You wait and wait you can't wait any longer You wait and wait, couldn't be any wronger no Give it up Don't let it get you down Give it up you really really blew it Give it up Turn your head around...
