Somebody told me love's a beautiful thing And when I found it all the bells would just ring The sun would shine and all the birds would sing Then I met you

I searched the planet for that magical girl I walked a million miles all over the world I found the oysters, but never the pearls. Then I met you...

I can't eat
I can't sleep
I feel sick
I'm so weak

Love should never feel like this I must be doing something wrong I've never felt this way before

Walk in the bathroom and I take a deep breath Look in the mirror and it scares me to death Look like a junkie that's been strung out on meth Since I met you

I can't eat
I can't sleep
I feel sick
I'm so weak

Love should never feel like this I must be doing something wrong I've never felt this way before

Love should never feel like this I must be doing something wrong I never felt this way before

Oh, ignorance was always bliss Love should never feel like this

Love should never, ever feel like this I've never felt this way before I must be doing something wrong No, Love should never, ever feel like this I must be doing something wrong I've never, ever felt this way before What's wrong with me!
