

Might As Well Be On Mars

Alice Cooper

- Gm Eb**
1. The city streets are wet with rain tonight
Gm Eb
Taxi drivers swerve from lane to lane
Gm Eb
A lonely guitar man playin' down the hall
D Gm F C
Midnight blues comin' through the walls
- Gm Eb**
I tried to call you on the telephone
Gm Eb
I left it off the hook just to hear it ring
Gm Eb
You told me you were better off alone
D Eb
I never knew that tears could stain
- Asm E F# Asm**
R: I'm on the roof and I'm starin' at the stars
E B F#
Lookin' down at all the cars
A E
I can see you
Asm E F# Asm
In the window of your favorite corner bar
E B F#
But to reach you is just too far
A E
And I might as well be on Mars
- Gm Eb**
2. The city seems so old and grey and beat
Gm Eb
It closes in and makes me wanna suffocate
Gm Eb
And you just live across the street
D Eb
But that's a billion miles away
- Asm E F# Asm**
You've turned my world into a dark and lonely place
E B F#
Like a planet lost in space
A E
My light is fadin'
Asm E F# Asm
I'd cross the universe to be right where you are
E B F#
But I'm right in your backyard
A E
And I might as well be on Mars
- F#**
*: I might as well be on Mars
E B
You can't see me

F#

I might as well be the Man on the Moon

E B

You can't hear me

Ebm Esus4 E

Oh, can you feel me

C#m B F#

So close and yet so far

A Gm F# B

Baby, I might as well be on Mars

F

Baby, I can't fly

If I could I'd come down to ya

Maybe I should try

R: I'm on the roof...

*: I might as well...
