

## (No More) Love at Your Convenience

Alice Cooper

Your childish game is over now  
Lost your power over night some how  
Better see it ain't gonna be like it used to be

No more love at your convenience  
No more love at your command  
No more love at your convenience  
Lots of time late at night, I really needed you

I'm telling you tonight's the night  
Close your mouth, turn off the light  
Pull me babe, pull me down closer on you

No more love at your convenience  
No more love at your command  
No more love at your convenience  
Lots of time late at night, I really needed you  
I really needed you, I really needed you

No more love at your convenience  
No more love at your command  
No more love at your convenience

Quit your tears and dry your eyes  
You know I hate to see you cry  
Don't you see things gotta be what they got to

No more love at your convenience  
No more love at your convenience  
No more love at your convenience

No more love at your convenience  
No more love at your convenience  
No more love at your convenience
