## Perfect

## Alice Cooper

She's an overnight sensation In the mirror on her wall She gets a standing ovation At every shower curtain call

And she becomes a pop star In the safety of her car And then she falls to pieces At the karaoke bar

And she's perfect Until the lights go on And then it all goes wrong Cause now she's not so perfect

She can shake it just like J-Lo When the bedroom lights go down But when she hits the dance floor She's a hip-hop hippo clown

She's perfect Until the lights go on And then it all goes wrong Cause now she's not so perfect

She's perfect She's so fine She's so wonderful In the arena of her mind

She's not perfect She's all mine She can't sing or dance She ain't got a chance But baby, I don't mind

She's perfect Oh, she's perfect Ah, she's so perfect You know, she's so perfect Ah, ah, ah

Sing baby Dance, dance, dance You got it Shake it down Oh, that's bad That's bad I love you baby That's just awful You got it You got it
