Roses on White Lace

Alice Cooper

I saw you in your wedding gown The prettiest dress I came into your room that night And made such a mess In my own way, I lovingly kiss the bride With your ring in your hand Your eyes and your mouth open wide

In my eyes Blood drops look like roses on white lace They won't wash away In my mind they're roses on white lace Straight from the heart So dead upon the bed

You hurt me in the deepest way I'm crippled inside I took your evil skin away It's all cut and dried I saw you tonight and carefully took your hand With some smears on my cheeks I knew that you'd understand

In my eyes Blood drops look like roses on white lace They won't wash away In my mind they're roses on white lace Straight from the heart So dead upon the bed Still searching for your head

Oh, they're never going to find your face It's hidden away I found a very special place where you used to play In my own way, I lovingly kiss the bride With your ring in your hand Your heart and your mouth open wide

In my eyes Blood drops look like roses on white lace They won't wash away In my mind they're roses on white lace Straight from the heart Blood drops look like roses on white lace Crimson and sweet - stained on the sheet Roses on white lace - pretty in red, dripping and wet Roses on white lace - spilled on the walls, dark in the hall Roses on white lace Roses on white lace Roses on white lace Roses on white lace (fade)
