

# Take It Like a Woman

Alice Cooper

I bet ya never thought  
That it would never turn out like this  
Mama's little girl  
Daddy's little princess

But somewhere in your fairy tale  
Everything went wrong  
Now the sun don't shine  
The words don't rhyme  
You're out of time

You've been beaten down  
Kicked around on the ground  
But you took it like a woman  
Victimized, terrorized, paralyzed  
But you took it like a woman  
Pushed too far pulled too hard  
Deeply scared  
I know you must have felt the pain  
But you took it like a woman

Ya thought you had your Mr. Right  
But he was really Mr. Hyde  
Ya gave him your most precious gift  
You were his bleeding bride  
He tied you up pulled your hair  
He slapped your innocent face  
Yeah, you were black and blue  
He laughed at you  
So what'd you do?

Aw you've been beaten down  
Kicked around on the ground  
But you took it like a woman  
Victimized, terrorized, paralyzed  
But you took it like a woman  
Pushed too far pulled too hard  
Deeply scared  
I know you must have felt the pain  
But you took it like a woman

And so its over  
Your fantasy life is finally at an end  
And the world above is still a brutal place  
And the story will start again

You been beaten down  
Kicked around on the ground  
But you took it like a woman  
Victimized, terrorized, paralyzed  
But you took it like a woman  
Pushed too far pulled too hard  
Deeply scared  
I know you must have felt the pain

Felt the pain  
I know you must have felt the pain

But you took it like a woman  
You took it like a woman  
I know you must have felt the pain  
You took it like a woman  
I know you must have felt the pain  
You took it like a woman  
I know you must have felt the pain  
You took it like a woman
