Trouble in Paradise

Alice Merton

Boom, bo-boom-bo-, boom
Boom, bo-boom-bo-, boom
Boom, bo-boom-bo-, boom
Boom, bo-boom-bo-, boom
Boom, bo-boom-bo-, boom
Boom, bo-boom-bo-, boom
Boom, bo-boom-bo-, boom
Boom, bo-boom-bo-, boom

I remember those times
I felt like I had been dreaming
Found someone who saw something
That I thought I'd been seeing
But clouds started appearing
I could feel the rumbling
I could feel the reeling

Trouble in paradise
Trouble in paradise
I think I need a break from the rules that you make
I think I need a break from the rules, from the rules
From the rules that you make

Boom, bo-boom-bo-, boom
Boom, bo-boom-bo-, boom

I tried to run but you'd find me
Everywhere you kept by me
I just don't understand how we got so lost
So far from the real thing
Well I was hoping we'd be a thing
But I was praying we'd keep sane
But bright turned to black and I saw

Trouble in paradise
Trouble in paradise
I think I need a break from the rules that you make
I think I need a break from the rules, from the rules

Trouble in paradise
Trouble in paradise
I think I need a break from the rules that you make
I think I need a break from the rules, from the rules
From the rules that you make

Finally you saw lightning, struck your heart like those vikings
You were laughing out, you are lashing out
You were saying the right things
But you kept me wrong, you kept me wrong (x2)

Trouble in paradise
Trouble in paradise
I think I need a break from the rules that you make
I think I need a break from the rules, from the rules

Trouble in paradise
Trouble in paradise

```
I think I need a break from the rules that you make
I think I need a break from the rules, from the rules
From the rules that you make
```
