

LALA

Alicia Keys

(EarDrummers)

(Mike Will Made It)

Light the incense
Not to mention
Skin like whiskey
She's cold like on the rocks
(La-la-la, la-la-la, la-la)
I still love smoking ZaZa

Light the incense
Loose the tension
Feels like heaven
Lust mixed with a vodka
(La-la-la, la-la-la, la-la)
Feelings get lost in the LaLa

Happy but you're unhappy
Shorty you're so valid
I'm ready when you're ready
Don't you know eyes can be so deadly

I try not to think but you made me
It's just a G thing, baby
All in my satin sheets you're laying

Walked through the door, there you were
Bought you Louis, Fendi etc
Woman you should've told me you were dangerous
Woman you should've told me you were medicine

Put it on me like you said you would
Fell so hard like you said you would
Love out of this world, out of this Nebula
It's best to just, put you on my schedule

Light the incense
Not to mention
Skin like whiskey
She's cold like on the rocks
(La-la-la, la-la-la, la-la)
I still love smoking ZaZa

Light the incense
Loose the tension
Feels like heaven
Lust mixed with a vodka
(La-la-la, la-la-la, la-la)
Feelings get lost in the LaLa

Listen
Healthy indecisions
Tryna fight it would be so ridiculous
I'm ready when you're ready
Someone watching would be so jealous

I try not to think but you made me

It's just a G thing, baby
All in my satin sheets you're laying

Put it on me like you said you would
Fell so hard like you said you would
Love out of this world, out of this Nebula
It's special, put you on my schedule

Light the incense
Not to mention
Skin like whiskey
She's cold like on the rocks
(La-la-la, la-la-la, la-la)
I still love smoking ZaZa

Light the incense
Loose the tension
Feels like heaven
Lust mixed with a vodka
(La-la-la, la-la-la, la-la)
Feelings get lost in the LaLa
