

# Like Water

Alicia Keys

Sometimes we're doing good  
Sometimes it feels so bad  
Sometimes we give up the fight  
Sometimes we can't see the light, right

You know how lovers flow  
You know how lovers grow  
Sometimes we gotta explode  
Come on baby, you know how love goes

And if the drought hits tonight  
Do not fear because you and I  
We are like water, like water  
Made to survive

And if the drought hits tonight  
Do not fear because you and I  
We're part of each other, like water  
You're giving me life

You know I got you, babe  
Even on cloudy days  
Into the rain, I may cry  
Still you're the love of my life, babe

I'll take you anywhere  
Just say it, I'll take you there  
Out to the moon and the sea  
Babe, I'm your galaxy  
Come to me

And if the drought hits tonight  
Do not fear because you and I  
We are like water, like water  
Made to survive

And if the drought hits tonight  
Do not fear because you and I  
We're part of each other, like water  
You're giving me life

Oh  
Oh-oh-oh, oh  
Oh-oh-oh, oh-oh-oh  
Oh-oh-oh, oh-oh  
Oh-oh-oh, oh-oh-oh  
Oh-oh-oh, oh  
Oh-oh-oh, oh-oh-oh  
Oh-oh-oh, oh-oh

And if the drought hits tonight  
Do not fear because you and I  
We're part of each other, like water  
Made to survive

And if the drought hits tonight  
Do not fear because you and I

We're part of each other, like water  
You're giving me life
