

Love When You Call My Name

Alicia Keys

I hear your voice and it's all around me
I can't contain all the ways you make me feel
Love when you call my name
Even if we're gone for miles and hours
There is only one thing I need
Only one word to say
Love when you call my name

And I want you to know, I know that this is so rare
It's so unbelievable, it's almost unfair
So good
Love when you call my name

And we
Got so much to give
And we
Sure 'nuff got it good
Love when you call my name

So good
Love when you call my name

And I want you to know, I know that this is so rare
It's so unbelievable, it's almost unfair
So good
Love when you call my name

And we
Got so much to give
And we
Sure 'nuff got it good
Love when you call my name
Love when you call my name
Love when you call my name
