

## Nat King Cole

Alicia Keys

Take off your coat  
Take off your clichés  
Show off a side that no one sees  
You got the whole world right here in your pocket  
Chasing those stardust melodies

So if you wanna live on  
You gotta put on your finest  
If you wanna sing your song  
You gotta put the time into timeless  
If you wanna take it all  
Let the chandeliers fall  
While you're standing tall like the Taj Mahal  
Be unforgettable  
Like Nat King Cole  
Like Nat King Cole

There are no endings  
There are no yesterdays  
When you hit a chord that everyone hears  
Emeralds and rubies  
Black and white movies  
They never truly fade away  
'Cause greatness never disappears

So if you wanna live on  
You gotta put on your finest  
If you wanna sing your song  
You gotta put the time into timeless  
If you wanna take it all  
Let the chandeliers fall  
While we standing tall like the Taj Mahal  
Be unforgettable  
Like Nat King Cole

We take the moment by storm  
Like Nat king Cole  
(Oh yeah)  
Like Nat King Cole  
We're unforgettable  
Like Nat King Cole  
Oh yeah  
Oh yeah  
Oh yeah

Show off, show off  
Show off, show off
