

Wasted Energy

Alicia Keys

Don't want your love
Don't worry who I'm seeing tonight, it's none of your business
Too bad I weren't enough
'Cause ready or not, I'm better on my own

Too many times you turned a blind eye to the way I feel
Oh, you're the reason why I'm numb
And when I try to give you my time it's never ever ideal
Had to learn it the hard way
Oh, yeah

Wasted energy
Wasted energy
Wasted energy
Why did you, why did you fuck up the chemistry?

Broken promises along the way
Lost count of how many you made my love, my love, my love
Tied up in your plans, still on center stage, no great escape
Wouldn't keep you in my line up, line up, line up

Too many times you turned a blind eye to the way I feel
Oh, you're the reason why I'm numb, yeah
And when I try to give you my time it's never ever ideal
Had to learn it the hard way
Yeah

Wasted energy
Wasted energy
Wasted energy
Why did you, why did you fuck up the chemistry?

Kwa nini penzi umelikata miguu
Unalibidua mara chini mara juu?
Why, why, why?
Why, why, why?
Moyo unaumia, Moyo unaumia
Moyo unaumia kwa nini unaugeuza nguo karaha?
Eti karaha, oh
