You Save Me

Alicia Keys

Yeah, well
I never thought I'd find it
But it's always been clear
Well, this time that I've been tryin'
You were standin' right here
I never thought I'd go far
And all this time I've been fightin'
'Cause everything was so hard
You didn't give up on me, baby, no

I know you got me
There's nothin' like your love
You know I got you

And if I could stay, I'll stay here forever
And if I could be here, we'll be here together
'Cause did you know that you saved me?
Did you know that you saved me from the fall?
Did you know that you saved me?
'Cause we've been through it all
And I owe it all to you, I owe it all
And I owe it all to you, I owe you all

And know that you rock with me
And know I'll be rockin' with you
Know that you rock with me
You know I'll be rockin' with you

Needed to be reminded
'Cause it wasn't all clear
No reason to be hidin'
'Cause you're standin' right here
I just want to go far
All this time I've been fightin'
'Cause everything is so hard
But you won't give up on me, hey, yeah

I know you got me
And there's nothin' like your love
You know I got you

And if I could stay, I'll stay here forever
And if I could be here, we'll be here together
'Cause did you know that you saved me?
Did you know that you saved me from the fall?
Did you know that you saved me?
'Cause we've been through it all
And I owe it all to you, I owe it all
And I owe it all to you, I owe you all

And know that you rock with me
And know I'll be rockin' with you
Know that you rock with me
You know I'll be rockin' with you
Know that you rock with me
You know I'll be rockin' with you
Know that you rock with me

You know I'll be rockin' with you
