

Strangers

Alisha's Attic

I will you think of you while I'm asleep
I will hold you again I am sure
And I'm really sorry I couldn't
Put that picture in the frame
I hope you find what you're looking for
Please don't pass me in the street

We should never be strangers estranged
Love lost at sea
That innocent thing
I opened my eyes
Just to see you sometimes

You've got your scars, so have I
'Cause we thrashed each others hearts out
On the frontline
It was like a blind drive in the dark
Like we wanted to light sparks
We never found what we were looking for
Please don't think bad thoughts of me

We should never be strangers estranged
Love lost at sea
That innocent thing
I opened my eyes
Just to see you sometimes

Please don't pass me in the street
And please don't not notice me

We should never be strangers estranged
Love lost at sea
That innocent thing
I opened my eyes
Just to see you sometimes

We should never be strangers estranged
Love lost at sea
That innocent thing
I opened my eyes
Just to see you sometimes
