

I Found Away

Alkaline Trio

Midway on our life's journey, I found myself
In dark woods, the right road lost. To tell
About those woods is hard - so tangled and rough
And savage that thinking of it now, I feel
The old fear stirring....

Stumbling through the dark with a broken heart, all alone at it once
again
Seeping in like a feeling you haven't felt since way back when
In the dead of that night, like the Summer of Sam
I caught word of the commotion you cause via telegram
And got all worked up, we got all worked up

I found away
Over the fear and through the flames, I'm diving in
Don't follow me, stay right here I'll be back for you someday
I found away, it'd be best if you just stayed
It's not safe, don't follow me
I found away, I found away

Frozen in the lights of a locomotive, tied to the tracks again
You said you haven't felt this comatose since you can't remember when
You fly off the handle every time we sleep, straight off the deep

I found away
Over the fear and through the flames, I'm diving in
Don't follow me, stay right here I'll be back for you someday
I found away, it'd be best if you just stayed
It's not safe, don't follow me
I found away, I found away

Away...
Away...

From the top of my lungs the truth shall be sung, sharp and damning
Violently stabbing at secrecy
That look on your face, it's more than I can take it's scaring
The living hell straight out of me

I found away
Over the fear and through the flames, I'm diving in
Don't follow me, stay right here I'll be back for you someday
I found away, it'd be best if you just stayed
It's not safe, don't follow me
I found away, I found away

I found away, I found away, I found away
I found away, I found away, I found away
I found away, I found away, I found away
I found away, I found away, I found away
