

# Live Young, Die Fast

Alkaline Trio

It's not big surprise  
We turned out this way  
It's in our eyes  
Like shallow graves  
But we are one with the larva and dirt  
We don't discriminate at all  
For what it's worth

So live young, die fast  
No one will last  
So sit back and relax  
Enjoy the crash  
You're fading to black and you're gone  
Live young, die fast  
Die fast

Young easy life  
And untimely death  
This doesn't work at all for me  
So save your breath  
You took your time  
And stashed it away  
Deep down inside of a cardboard box  
Marked "rainy day"

Live young, die fast  
No one will last  
So sit back and relax  
Enjoy the crash  
You're fading to black and it's gone  
Live young, die fast

And I feel a miracle  
In every breath that I breathe  
Won't let this miracle  
End in tragedy  
I sense a miracle  
In all that I see  
Won't let this miracle  
Slip away from me

Live young, die fast  
No one will last  
So sit back and relax  
Enjoy the crash  
You're fading to black and it's gone  
Live young, die fast  
Live young, die fast  
Die fast  
Live young, die fast  
No one will last  
So sit back and relax  
Enjoy the crash  
You're fading to black and it's gone  
Live young, die fast  
Die fast
