

# Close My Eyes

All Ends

I never wanted you to know  
You said you'd leave  
But you never did  
It's time you meant the words you said

I can't stand you're leaving  
I turn around

Close my eyes  
I close my eyes  
'Cause I see your face everywhere  
Want to forget the day that we met  
Close my eyes  
I close my eyes  
'Cause I see your face everywhere  
Want to forget  
I have to move on!

Fool, I found out you still look at me with a smile  
Oh, don't you need my eyes wide shut  
But you'll be the one living with the pain  
You gave up too easy  
I turn around

Close my eyes  
I close my eyes

'Cause I see your face everywhere  
Want to forget the day that we met  
Close my eyes  
I close my eyes  
'Cause I see your face everywhere  
Want to forget  
I have to move on!

I try how I get through this  
Then I won't be no more  
In stead you're leaving  
You gave up too easy  
I turn around

Close my eyes  
I close my eyes  
'Cause I see your face everywhere  
Want to forget the day that we met  
Close my eyes  
I close my eyes  
'Cause I see your face everywhere  
Want to forget (In stead you're leaving)  
I have to move on! (You gave up too easy)
