

Treat Me Right

All Ends

I want you to treat me right don't try to hide behind your lies
and I need to feel
That you think of me whenever I'm gone and every time it's hard
..

I need you to stay just look inside your heart and I know you w
ill find a reason
Not to leave us behind and give me all your love

You want me to know the truth but please try to see this throug
h my eyes
You tell me not to be scared that everything's ok but what abou
t when I'm gone
And everytime it's hard..

I need you to stay just look inside your heart and I know you w
ill find a reason
Not to leave us behind and give me all your love

I know you don't wanna hurt me but I can't tell you how
I'd react if I knew
That you've been seeing somebody else when I wasn't there

I need you to stay just look inside your heart and I know you w
ill find a reason
Not to leave us behind and give me all your love
