

Better Than That

All

Once you recognize the truth tell me what do you do? Addicted to the sickness its an actual fact, Its inside of me and its inside of you, All I know is I hope we're better than that. We try to lend a hand, to help our fellow man, But what is said and done, its all about number one, We cooperate enough to stay alive, Its inside of me and its inside of you, And the devotion to the trinity of me, myself and I. Once you recognize the truth tell me what do you do? Addicted to the sickness its an actual fact, All I know is I hope we're better than that. So I went to get a hammer to break his knees, I remember once this guy, made my girl cry, Nothing came of it, except just macho bullshit, Or expression of the symptoms of the naked ape's disease. And the nightmare keeps repeating, While the consciences are sleeping, Untroubled and unclean. This cool girl that I know went and had a baby, she lets me hold the kid a while, An amazing leap of faith, And when I see them, and I watch the baby smile, I thought i'd outgrown hope, But what I see there gives me reason. Once you recognize the truth tell me what do you do? Its inside of me and its inside of you, All I know is I hope we're better than that, Addicted to the sickness its an actual fact, All I know is I hope we're better than that, Oh we're better than that, Oh we're better than that, All I know is I hope we're better than that.
