

I know what time you will arrive  
Cause I've been waiting for you every night  
God no! you can't save me  
My heart skips a beat

I hear footsteps down the hall  
I've been waiting right behind your door  
No one will hear  
Don't you worry my dear

It's your eyes, your smile  
It's your hair, your face  
It's your life

I cut the cord on your phone  
I've been secretly walking you home  
God no! you can't save me  
My heart skips a beat

Under your bed is my secret place  
At night I keep the hair out of your face  
No one will hear  
Don't you worry my dear

It's your eyes, your smile  
It's your hair, your face  
It's your life
