

Sugar And Spice

All

Feel her love
Watch her lie
Fell her love
Watch her lie

Sugar and spice
And everything nice

I hate to break the news
But you've been riding on a great big lie
I hate to break the news
But you've been riding on a great big lie

Don't be fooled - she's not pure
But you can still take that girl
For what she's worth
Get it through your head
It will never feel the way it did
That first time

Sugar and spice - you feel deceived
Sugar and spice - in here you believed
Sugar and spice - now it's your turn to cry
Sugar and spice - because it's all a great big lie

What are girls made of?
Sugar and spice
What are they made of?
Sugar and spice
That's what they say
