

Let It Rain Down

Alle Farben

I won't fight it
Won't try to deny that this is who I am
I can't hide it
I won't turn to a lie, so unlike me

Here's to the tears
To the pain that I feel
Let it wash away
To all of my sins
The mistakes and the wins
I am not afraid

Let it rain down
Cover my bones
Dancing with the light
Lights over me
Light, lights pulling me close
Pour it all out
Dancing with the light
Lights over me

Let it rain down
Let it rain down
Let it rain down
Dancing with the light
Lights over me
Let it rain down

I am grounded
Was lost but I found
That this is who I am
I'm a mountain
There is no way around me
Now I see

Here's to the tears
To the pain that I feel
Let it wash away
To all of my sins
The mistakes and the wins
I am not afraid

Let it rain down
Cover my bones
Dancing with the light
Lights over me
Light, lights pulling me close
Pour it all out
Dancing with the light
Lights over me

Let it rain down
Let it rain down
Let it rain down
Dancing with the light
Lights over me

Let it rain down
Cover my bones
Dancing with the light
Lights over me
Light, lights pulling me close
Pour it all out
Dancing with the light
Lights over me
Let it rain down
