

Feed the Wolves

Allele

To lust for something chemical
To dust you take all your chose with you
Anticipating revolution beneath the floor
Your destination waits outside your door
This complexing pleasure

Hope I can break this spell tonight
Cause it's a long way home
The wolfs all have gathered frenzy to walk around me and pray
They'll feed from your back if you face.....down

To touch desire that comes in vain
It's too much it's mystical can the say
Aggravating push comes with a taste of power
Intentions create a multi secrete

Hope I can break this spell tonight
Cause it's a long way home
The wolfs all have gathered frenzy to walk around me and pray
They'll feed from your back if you face down
No rescue to play out if I could break this spell tonight
Then I would come back to drag the wolf that pray

Wolves that pray

Pray

Hope I can break this spell tonight
Cause it's a long way home
The wolfs all have gathered frenzy to walk around me and pray
They'll feed from your back if you face down
No rescue to play out if I could break this spell tonight
Then I would come back to drag the wolf that pray
