

What I Get

Allele

Show me where it's right
I've been kicked upon
Stepped upon and I
Kept it all in sight
Somewhere in the fall
It's the battle for the lesson
That the pusher comes to know
Caught in the sand
A quick and numbing wound
I've been waiting for
I wanna get what I wanna get
Only what I'm waiting for
I wanna get, what I wanna get
All my strength to carry forth
Show me what I know
That you're ego has become the battle for the lessons learned
Scream it aloud
Clutching to the words that keep me locked away
Who's keeping score anyway
I wanna get what I wanna get
Only what I'm waiting for
I wanna get, what I wanna get
All my strength to carry forth
I wanna get, what I wanna get
Getting back to when I lived before
Take control fight to liberate
Let rapture fall hands and knees
Who's keeping score anyways
Let fate decide what cannot be undone
One last fall
Waiting for
I wanna get, what I wanna get
Only what I'm waiting for
I wanna (I wanna) get, what I wanna get (I wanna get)
All my strength to carry forth
I wanna get, what I wanna get
Getting back to when I lived before
Cause I wanna get
