

# Come Dream with Me

Allen-Lande

If I could skip along the clouds  
And hear the wind singing out loud  
If I could paint a sky full of blue

If I could find my place and reason  
If I could turn back all the seasons  
I would control the raging storms of night

Never feel that feel again  
To be alone from the lies  
With you in this is divine

Come and dream with me  
There's a place I'll be  
That's where I will be every day

All the love you're bringing  
With the songs you're singing  
Come forever, dream with me

Every time I close my eyes  
It's you and I know who I am  
Be anyone I wanna be it's true

I could've feel that I am falling  
And I know where I am going  
Hold me close now, never let me go

Never feel that feel again  
To be alone from the lies  
With you in this is divine

Come and dream with me  
There's a place I'll be  
That's where I will be every day

All the love you're feeling [?]  
From the songs you bring  
Stop forever, dream with me

Come and dream with me  
There's a place I'll be  
That's where I will be  
Every day

All the love you're bringing  
With the songs you're singing  
Come forever, dream with me
