

# Leave It All Behind

Allie Moss

Take a look at where we are  
Somehow we have found the point of no return  
There's no time to wait it out  
We've gotta cross this bridge, or we will watch it burn

The first step will be the hardest one that we will take  
One two three, are we ready?  
One two One two three

CHORUS:

Oh, we'll leave it all behind  
Oh, and in its place we'll find  
The clarity we know we need, oh

When words collapse we fall apart  
The pressure and the pain leave us paralyzed  
Knowing there's no going back, no way to be there now  
We still need to try

The first step was the hardest but it's not last  
One two three, are we ready?

CHORUS

I will carry you will carry me  
I will carry you will carry me  
I know you know we need to leave it all behind, leave it all behind

CHORUS
