## Catch

All I needed was the medicine And you came knocking like a doctor Gave me the pill to take away the poison Erase the writing on the wall You stuck a needle right into that vein You let me take it like a soldier And for a while I could ignore the pain

My hands are tied behind the back I'm paralyzed, my heart attacks It seemed to me you are the one Turns out you shut me up for fun

You got away with murder Leave me at a loss for the words Just wait until I catch my breath WAIT UNTIL I CATCH MY BREATH Yeah, but you thought you got away with murder Leave me at a loss for the words Just wait until I catch my breath WAIT UNTIL I CATCH MY BREATH

I was devastated by the pain But now I couldn't call the doctor You gotta stop the forces in my brain Gotta read the writing on the wall It isn't easy getting in the vein When you do it wrong No one to take it, no one to take it

My hands are tied behind the back I'm paralyzed, my heart attacks I'm screaming, begging for the one That won't just shoot me up for fun

You got away with murder Leave me at a loss for the words Just wait until I catch my breath WAIT UNTIL I CATCH MY BREATH Yeah, but you thought you got away with murder Leave me at a loss for the words Just wait until I catch my breath WAIT UNTIL I CATCH MY BREATH

Wait until I catch my Wait until I catch my Wait until I catch my breath Wait until I catch my Wait until I catch my Wait until I catch my breath

You leave me hanging out here for so long When will I catch my breath You leave me hanging out here for so long When will I catch my breath

You got away with murder

Leave me at a loss for the words Just wait until I catch my breath WAIT UNTIL I CATCH MY BREATH Yeah, but you thought you got away with murder Leave me at a loss for the words Just wait until I catch my breath WAIT UNTIL I CATCH MY BREATH

Wait until I catch my Wait until I catch my Wait until I catch my breath Wait until I catch my Wait until I catch my Wait until I catch my breath
