

Happy Ever After Endings

Allstars

Happy ever after endings
I only wanted to dream
Happy ever after endings
I only wanted to dream
Its 12'0' clock and I am solo
The DJ plays my favourite song
My lonely tears the melody cheers
Lift up your heart
Make a brand new start

I feel the music come alive in me
Heart and mind in symphony explode
I only wanted to dream A dream
Happy ever after endings
Raining down on me
A thousand happy ever after endings
When the music lives in me
When I'm in need of inspiration
I play my song and sing-a-long
Through every year
The jukebox is here
Travelling through time

I feel the music come alive in me
Heart and mind in symphony explode
I only wanted to dream A dream
Happy ever after endings
Raining down on me
A thousand happy ever after endings
When the music lives in me
Music is the place we meet
Soul or country move your feet
From New York city to London town
Music and friends go hand in hand
Let the music make your life a stage
Act your shoe size not your age
Wish upon your favourite song
Your can sing-a-long

I feel the music come alive in me
Heart and mind in symphony explode
I only wanted to dream A dream
Happy ever after endings
Raining down on me
A thousand happy ever after endings
When the music live in me
