

Legend

ALMA

Yeah, yeah
I fucked it up
I've been up all night
But you know me, I just feel like a

I go hard
Everywhere, anytime, everybody knows that
I go all night
In the club, at the bar, everybody knows me
Don't try to stop me when I do my thing
Yeah, yeah
I am the greatest, all I do is win, baby

I fuck it up, been up all night
But I feel like a legend
I overdose, and then I fight
I can't stop winning
'Cause baby I'm a legend

Legend for life, legend for life
I got it, I got it, I got it right
Legend for life, legend for life
I got it, I got it, I got it
'Cause baby I'm a legend

I just wanna rave with somebody
I just wanna have a good time, but you just wanna stop the party
Can't keep up with me, and I am blaming you baby
'Cause I go 'til the morning, they call me the greatest

I fuck it up, been up all night
But I feel like a legend
I overdose, and then I fight
I can't stop winning
'Cause baby I'm a legend

Legend for life, legend for life
I got it, I got it, I got it right
Legend for life, legend for life
I got it, I got it, I got it
'Cause baby I'm a legend

Don't focus on them things, on the things that I say
Don't focus on my moves, [?]
Don't wanna be losing for you, everything's something new
Again ending up like this, no
Again ending up like this, no

I fuck it up, been up all night
But I feel like a legend
I overdose, and then I fight
But I feel like a legend

Legend for life, legend for life
I got it, I got it, I got it right
Legend for life, legend for life
I got it, I got it, I got it

Legend for life, legend for life
I got it, I got it, I got it right
Legend for life, legend for life
Legend for life
Keep that in mind
